

## Research: The Water Cycle

United Utilities is the water company that treats the water we use in the North West.

Explore the following site from United Utilities for information and activities to do with the water cycle, water conservation and water treatment.

[http://www.unitedutilities.com/\\_common/thirdparty/education/index.html](http://www.unitedutilities.com/_common/thirdparty/education/index.html)

This shows you how we collect, use and treat water.

Explore each menu. Watch the videos and after each section and do each quiz.

Write down the key facts you have learnt from the website in the water droplet for our display.
